### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is applicants' arguments:

“that the examiner must consider all of the claimed limitations and, in particular, cannot ignore the limitation which requires that the invention is ‘a weight member for a golf club’” (applicants' response, page 6, lines 11 to 13);

that the phrase, “a weight member for a golf club head is a well known term of art which describes a specific article of manufacture known to those skilled in this field of technology” including supporting arguments and references regarding this point (applicants' response, pages 6, line 11 to page 7, line 12);

that the phrase. “‘a weight member for a golf club head’ must therefore be considered as a specific article of manufacture” that must be given weight (applicants' response, page 7, lines 13 and 14 in view of page 6, lines 11 to 13); and

that the reference, Yabuki et al., directed to valve or valve seats in an engine “is not in any way concerned with the field of technology pertaining to golf clubs” (page 7, lines 13 to 15).

The Examiner notes that applicants' arguments are directed to the phrase “a weight member for a golf club head” as recited in claims 1 to 9, but considers

Art Unit: 1742

applicants' arguments at least as equally applicable to the claim language, "a weight member having a configuration for engagement with a golf club head" as recited in claims applicants' 10 and 11.

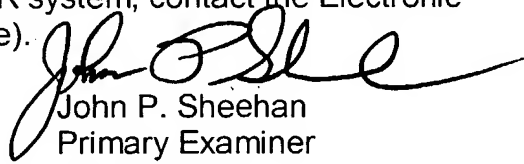

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
